* **Enthusiastic** web developer **proficient** in **HTML, CSS, and JavaScript.**
* Dedicated to **crafting clean, responsive designs** and **passionate** about user experience.
* Eager to apply academic foundations and **practical skills** in a collaborative environment, **contributing** to innovative web development projects with a **keen eye for detail.**

SKILLS

Technical Skills	HTML	CSS	Bootstrap	Javascript	React.js	Node.js	MongoDB	SQL	Visual Studio Code	Java	C	Data structure	PHP	Laravel

Soft Skills	Verbal and Written Communication	TeamWork	Problem Solving	Time management	Creativity

INTERNSHIP

Web Developer   **Nestcraft Design, Navi Mumbai**   **Apr 2024 – Jul 2024**

* **Assisted** in the **development and implementation** of responsive **web designs**, ensuring optimal user experience across multiple devices.
* Involved in an exciting **web development** project to contribute in **frontend and backend** as well as **testing** of a website which will be beneficial for Massage, spa and saloon parlors to list their businesses and services.
* **Analyzed and reviewed codes** for existing websites for self- study and debug checks.

Intern   **Cravita Technology, Pune**   **Nov 2019 - Jun 2020**

Project Title - Learning Management System (LMS)
* Developed a website that would be used to **track student data** in accordance with the needs of the client.
* Made student section **to navigate** through various detailed **educational courses** while designed **teacher's website** to **update** course information, including student enrollment, **attendance, details.**
* Gave **full access** control to the **admin** for **future updation** of code.
* **Used Languages and database** - HTML, CSS, Bootstrap, JavaScript, CodeIgniter framework with MySQL.

PROJECTS

Real Estate

* Constructed real estate platform clone with **React.js and MongoDB and Tailwindcss.**
* Designed **user interface using react.js,** to ensuring a smooth and responsive user experience.
* Set up and configured the **MongoDB database** for data storage.
* Designed and **implemented the database schema** to **store user accounts** and task-related information.
* Developed **REST API** endpoints to ensure seamless communications for product and user management including **creation, updating, deletion of products**.
  Website Link: https://mern-estate-didg.onrender.com
  Technology and Tools Used
  VS Code, MongoDB, React.js, Tailwindcss. Node.js.

Myntra Website Clone

* Constructed e-commerce platform clone with **React.js and MongoDB.**
* Designed **user interface using react.js,** to ensuring a smooth and responsive user experience.
* Set up and configured the **MongoDB database** for data storage.
* Designed and **implemented the database schema** to **store user accounts** and task-related information.
* Developed **REST API** endpoints to ensure seamless communications for product and user management including **creation, updating, deletion of products**.
